Abstract

Short summary of purpose and content.

Contents

1	Introduction	1
2	Homework	1
2.1	Week 1	1
2.2	Week 2	1
3	Project	1
3.1	Specification	2
3.2	Prototype	2
3.3	Documentation	2
3.4	Critical Appraisal	2
4	Conclusions	2

1 Introduction

2 Homework

This section contains solutions to homework.

2.1 Week 1

2.2 Week 2

...

3 Project

Introductory remarks. The following structure should be suitable for most programming projects.

3.1 Specification

3.2 Prototype

3.3 Documentation

3.4 Critical Appraisal

4 Conclusions

(approx 400 words) A critical reflection on the content of the course. Step back from the technical details. How does the course fit into the wider world of programming languages and software engineering?
